

### Modelo / Type Designation

|                                                           |                                   |
|-----------------------------------------------------------|-----------------------------------|
| Código / Item:                                            | 12034H                            |
| Artículo / Article description:                           | 20-H JERRICAN AP. BLANCO K60 T850 |
| Material / Raw Material:                                  | HDPE (High-Density Polyethylene)  |
| Tipo de Material / Type of material:                      | APM HDPE 55050 REPSOL             |
| Color / Colour:                                           | Blanco / White AUF0026932         |
| Tara / Tare Weight [Kg]:                                  | 0,850 ±0,020                      |
| Capacidad a reboso / Brimful Capacity [L]:                | 21,70                             |
| Espesor mínimo / Min. Wallthickness [mm]:                 | 1,20                              |
| Tipo de cuello / Closure System [mm]:                     | CCS 60X6                          |
| Diam. Interior de boca / Inner opening diam. [mm]:        | 47 ±2                             |
| Diam. Exterior rosca / Thread crest [mm]:                 | 60 ±0,7                           |
| Diam. Interior rosca / Thread root [mm]:                  | 54,5 ±0,5                         |
| Altura cuello / Neck height [mm]:                         | 21 ±0,5                           |
| Homologación / UN Approval:                               | 3H1/Y1,9/180/XX E/02-J-506-11     |
| Aptitud alimentaria / Food Approval:                      | Sí / Yes                          |
| Altura máx. de apilado (a 25 °C) / densidad rel. [g/cm³]: | 3 Unidades / 1,3                  |
| Stacking Height (up to 25 °C) / rel. Density of [g/cm³]:  | 3 Units high / 1,3                |

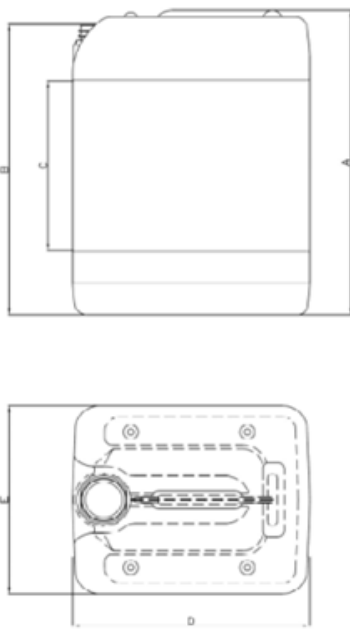

### Palet / Pallet

|                                     |                                 |
|-------------------------------------|---------------------------------|
| Base Palet (mm) / Pallet Base (mm): | 1200x1000x125 7 Tablas / Planks |
| Unidades Palet / Units per pallet:  | 96                              |

### Tapón-Tapa y complementos / Caps & Lids + Components

|                      | Tapa / Lid | Junta / L-Gasket | Tapón / Bung | t-Junta / B-Gasket  | Par de apriete / Torque [N x m] |
|----------------------|------------|------------------|--------------|---------------------|---------------------------------|
| Modelo / Model:      | -          | -                | K60          | Anillo / Ring       | 12-16                           |
| Material / Material: | -          | -                | HDPE         | Polexan / Foamed PE | -                               |
| Peso / Weight [g]:   | -          | -                | 24           | -                   | -                               |

### Dimensiones / Dimensions

| Cotas / Measures                                                                                                                                                                                                                                                                                                                                                                        | Plano / Plan             |      |                   |           |                   |     |                   |       |                 |         |                 |         |                                                                                      |
